Care**

Since 1968

Now what?

It's a question we can answer 24-hours a day, 7-days a week.

One of the most stressful times in taking care of a loved one is when a crisis hits. Suddenly you wonder and worry how you can handle everything. At Family & Nursing Care, we want to quickly and completely ease your mind.

Since 1968, we've been there for thousands of families. It's what we love to do, it's what we're honored to do.

Just tell us what you need.

After listening closely to you, we will match the right caregiver for your loved one's specific personality, needs, and circumstances. Each situation is unique. Let our decades of experience be your guide. Home Care support includes:

Activities of Daily Living: Bathing; dressing; personal hygiene; meal preparation; toileting; transferring; lifting

Mobility Assistance: Range of motion exercises; assistance with walking; turning/positioning in bed

Companionship: Engaging in activities and hobbies; medication reminders; encouraging independence

Support Services: Linens; laundry; light housekeeping; shopping and errands; accompany/transport to appointments

Skilled Nursing: Medication management; diabetes management; tube feeding; wound care; injections; ostomy care

There when you need us.

If you could do it all, you probably would. Let us help. We deliver home care services in private homes, retirement communities, independent and assisted living facilities, nursing homes, rehabilitation centers, hospitals...anywhere that you need us. You might need us from just a few hours to around the clock. We can even be there within hours of your call.

Your caregiver will be chosen specifically for you.

We select only the very best caregivers (CNAs, CMTs, LPNs & RNs). Our rigorous screening process confirms their expertise and experience, their compassion, their reliability and trustworthiness.

Speaking of family.

We are a family, as well. Family & Nursing Care was founded in 1968 by Sandy Kursban. Joining her to lead the company are her son Neal, who is the President, and her daughter, Mindy, who runs our therapeutic massage service. This is a company where people stay because we feel like family. Many of us have been here for 10, 15, 20 or more years.
