

ATTENTION CAREGIVERS:

Here's why you should get your COVID-19 vaccine right away:

It's never been easier to get a COVID-19 vaccine. Many of the vaccination sites are taking walk-ins during certain hours, so you don't need to make an appointment.

To find a vaccine, go to covidvax.maryland.gov or call 1-855-MDGOVAX (1-855-634-6829).

All COVID-19 vaccines have proven to be [effective at preventing COVID-19](#).

Therefore, **once you are fully vaccinated for COVID-19, you will not be required to get regular COVID-19 tests**, unless you work in a Senior Living Community or with a client that requires regular testing for vaccinated Caregivers.

If you are unsure whether the Senior Living Community where you work or the client you are working with requires COVID-19 testing for vaccinated Caregivers, please check with your Testing Coordinator.

As we continue to hear from Senior Living Communities and clients who are requesting to work only with vaccinated Caregivers, **we highly encourage you to get your COVID-19 vaccine as soon as possible so that we can continue to match you with work opportunities.**

Provide a Copy of your Vaccination Record

Once you have received your vaccine, send a copy of your vaccination record to Caregiver Services by either email (caregiverservices@familynursingcare.com), text (240-641-6369), or fax (Classic: 301-755-1105, Select: 301-755-1144).
